Hazard statement(s)			
H226	Flammable liquid and vapour.		
H315	Causes skin irritation.		
H319	Causes serious eye irritation.		
H335	May cause respiratory irritation.		
H372	Causes damage to organs through prolonged or repeated exposure (Central Nervous System).		
H304	May be fatal if swallowed and enters airways.		
H340	May cause genetic defects.		
H350	May cause cancer.		
H401 / H411	Toxic to aquatic life with long-lasting effects.		
Precautionary statement(s)	·		
P101	If medical advice is needed, have product container or label at hand.		
P102	Keep out of reach of children.		
P103	Read label before use.		
Precautionary statement(s)	: Prevention		
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources — No		
	smoking.		
P233	Keep container tightly closed.		
P240	Ground and bond container and receiving equipment.		
P241	Use explosion-proof [electrical/ventilating/lighting/] equipment.		
P242	Use non-sparking tools.		
P243	Take action to prevent static discharges.		
P280	Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.		
P260	Do not breathe dust/fume/gas/mist/vapours/spray.		
P264	Wash hands and skin thoroughly after handling		
P201	Obtain special instructions before use.		
P202	Do not handle until all safety precautions have been read and understood.		
P271	Use only outdoors or in a well-ventilated area.		
P273	Avoid release to the environment.		
Precautionary statement(s)	: Response		
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or		
	shower].		
P302+P352	IF ON SKIN: Wash with plenty of water/		
P321	Specific treatment (see First Aid Measures on this label).		
P332+P313	If skin irritation occurs: Get medical advice/attention.		
P362 +P364	Take off contaminated clothing and wash it before reuse.		
P308 + P313	IF exposed or concerned: Get medical advice/attention.		
P314	Get medical advice/attention if you feel unwell.		
P304 + P340	IF INHALED: remove person to fresh air and keep comfortable for breathing.		
P312	Call a POISON CENTER/doctor/if you feel unwell.		

Date of Issue: July 2022 Version: #4.0 Page 3 of Total 10

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present				
	and easy to do. Continue rinsing.			
P337 + P313	If eye irritation persists: Get medical advice/attention.			
P370+P378	In case of fire: Use foam, water spray or fog, dry chemical powder or carbon dioxide to			
	extinguish.			
P391	Collect spillage.			
Precautionary statement(s)	: Storage			
P403 + P235 Store in a well-ventilated place. Keep cool.				
P405 Store locked up.				
P233 Keep container tightly closed.				
Precautionary statement(s): Disposal				
P501 Dispose of contents/ container in accordance with local regulations.				
Note				
IMPORTANT	This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied.			

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS			
Ingredients:	CAS Number:	Proportion:	
Solvent naphtha (petroleum), light aromatic	64742-95-6	30 - 60% w/w	
With components:			
1,2,4-Trimethylbenzene	95-63-6	<10% w/w	
1,3,5-Trimethylbenzene	108-67-8	<10% w/w	
Xylene, Mixed Isomers	1330-20-7	<10% w/w	
1,2,3 Trimethylbenzene	526-73-8	<10% w/w	
n-Propylbenzene	103-65-1	<10% w/w	
Cumene	98-82-8	<10% w/w	
Naphtha (petroleum), hydrotreated heavy; Low boiling point hydrogen	64742-48-9	30 – 60% w/w	
treated naphtha			
N- butyl acetate	123-86-4	<10% w/w	
Note – contains < 0.1% benzene	various	<10% w/w	

NOTE: Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS7). Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listed for information purposes and for additive effects.

Date of Issue: July 2022 Version: #4.0 Page 4 of Total 10

SECTION 4 – FIRST AID MEA	ASURES		
Inhalation	If exposure to vapour, mists or fumes causes drowsiness, headache, blurred vision or irritation of the eyes, nose or throat, remove immediately to fresh air. Keep patient warm and at rest. If any symptoms persist, obtain medical advice. Unconscious causalities must be placed in the recovery position. Monitor breathing and pulse rate and if breathing has failed, or is deemed inadequate, respiration must be assisted, preferable by the mouth to mouth method. Administer external cardiac massage if necessary. Seek medical attention immediately.		
Skin contact	Immediately wash contaminated skin with plenty of soap and water. Remove contaminated clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation, burning or redness persists.		
Eye contact	If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. If symptoms persist, seek medical attention.		
Ingestion	If swallowed, do NOT induce vomiting. Transport to nearest medical facility for additional treatment. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.		
Advice to Doctor	Treat symptomatically.		
Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).		
First Aid Facilities	Eye wash station. Normal washroom facilities.		

SECTION 5 – FIRE FIGHTING MEASURES			
Fire and Explosion			
Hazards	Flammable liquid. Product may form flammable/explosive vapour-air mixture during use.		
Extinguishing Media	Foam, water spray or fog, dry chemical powder or carbon dioxide. Do not use water in a jet.		
Fire Fighting	Wear full protective clothing and self-contained breathing apparatus. Hazchem code 3Y.		
Flash Point	Flash point 30 - 40 °C		

SECTION 6 – ACCIDENTAL RELEASE MEASURES					
Emergency Procedures	HAZCHEM code : •3Y				
	3 = use foam extinguisher to fight fires.				
	Y = Yes – risk of violent reaction, recommend breathing apparatus, contain.				
	Shut off engine and electrical equipment off.				
	No smoking or naked lights within 50 metres.				
	Move people from immediate area; keep upwind.				
	Send messenger to notify fire brigade and police.				
	 Tell them location, material quantity, UN number and emergency contact. Indicate condition of vehicle and damage or injuries observed. 				
	Warn other traffic.				
Ensure an escape path is always available from any fire. Fires in confine					
	should be dealt with by trained personnel wearing approved breathing apparatus.				
	 If gas has ignited, do not attempt to extinguish but stop gas flow and allow to burn out. Use water spray to cool heat exposed bulk tanks, and to protect surrounding 				

Date of Issue: July 2022 Version: #4.0 Page 5 of Total 10

areas and personnel effecting shut-off. DO NOT USE water jets.
Every precaution must be taken to keep containers cool to avoid the possibility of a
boiling liquid expanding vapour explosion (BLEVE).
Ensure good ventilation.
Where appropriate, use water spray to disperse the gas or vapour and to protect
personnel attempting to stop leakage.
Vapour may collect in any confined space.
Occupational Release
 Minor spills do not normally need any special clean-up measures.
 In the event of a major spill, prevent spillage from entering drains or water-courses.
If spillage has occurred in a confined space, ensure adequate ventilation and check
that a safe, breathable atmosphere is present before entry.
 Do not enter a vapour cloud except for rescue; self-contained breathing apparatus must be worn.
 Wear protective clothing. See Exposure Controls/Personal Protection (section 8) of the Safety Data Sheet.
In the event of a leak, contact the appropriate authorities.
Small quantities of spilled liquid may be allowed to evaporate.
Vapour should be dispersed by effective ventilation.
 If contamination of sewers or waterways has occurred advise the local emergency services.
 In the event of a large spillage notify the local environment protection authority or emergency services.

Handling	Ensure good ventilation.
J	Avoid inhalation of vapour.
	Avoid contact with liquid.
	Avoid contact with eyes.
Storage	Refer to relevant regulations for storage and transport requirements.
	Store in a cool place and out of direct sunlight.
	Store in a well ventilated area.
	 Store away from sources of heat or ignition, oxidising agents and combustible materials.
	 Keep containers closed at all times – check regularly for leaks.

Date of Issue: July 2022 Version: #4.0 Page 6 of Total 10

Exposure Limits	National Occupational Exposure Limits, as published by National Occupational Health & Safety		
·	Commission:		
	Time-weighted Average (TWA):		
	None established for product.		
	In the absence of data from National Occupational Health & Safety Commission (NOHSC)		
	Worksafe Australia use - Mineral Spirits 150-200 HSPA: 350mg/m³ TWA (8hr).		
	• Xylene: 350mg/m³ (80ppm) TWA (8hr).		
	N-butyl acetate: 150 ppm, 713 mg/m3.		
	Short Term Exposure Limit (STEL):		
	None established for product.		
	Xylene: 655mg/m³ (150ppm) STEL		
	N-butyl acetate: 200 ppm, 950 mg/m3.		
Ventilation	Ensure ventilation is adequate to maintain air concentrations below exposure standards. Use only in a well-ventilated area. Ensure airflow, where this product is used, is directed away from the operators.		
Personal Protective	Use good occupational work practice. The use of protective clothing and equipment depend		
Equipment	upon the degree and nature of exposure. The following protective equipment should be available;		
Eye Protection	Safety glasses should be used for handling concentrate in quantity, cleaning up spills, decanting etc. Eye protection devices should conform to relevant regulations. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.		
Hand Protection	Use solvent resistant gloves, nitrile for longer term protection or PVC and neoprene for incidental splashes – to handle in quantity, clean up spills, decanting, etc. Final choice of appropriate gloves will vary according to individual circumstances. i.e. methods of handling of according to risk assessments undertaken. Occupational protective gloves should conform to relevant regulations. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.		
Body Protection			
	Suitable protective workwear, e.g. rubber or plastic apron, sleeves, boots and cotton overall buttoned at neck and wrist are recommended. Chemical resistant apron is recommended where large quantities are handled.		
Respirator	If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable vapor/mist filter should be used. Refer to relevant regulations for		
	further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.		

Date of Issue: July 2022 Version: #4.0 Page 7 of Total 10

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES				
Physical State	Non-viscous liquid	Colour	Clear	
Odour	characteristic odour	Specific Gravity	0.80 - 0.86 @ 25 ºC	
Boiling Point	Not available	Freezing Point	Not available	
Vapour Pressure	Not available	Vapour Density	Not available	
Flash Point	~30 - 40 ºC	Flammable Limits	Not available	
Water Solubility	Not miscible	рН	Not available	
Volatile Organic	~95 % v/v	Per Cent Volatile	~95 % v/v	
Compounds (VOC)	95 % V/V			
Viscosity	Not available	Odour Threshold	Not available	

SECTION 10 – STABILITY AND REACTIVITY	
Reactivity	Stable at normal temperatures and pressure.
Conditions to Avoid	Avoid heat, sparks, open flames and other ignition sources.
Incompatibilities	Avoid contact with strong oxidizing agents (ie: Chlorine, Pool chlorine, Nitric Acid, etc).
Hazardous	Thermal decomposition is highly dependent on conditions. A complex mixture of airborne solids,
Decomposition	liquids, gases, including carbon monoxide, carbon dioxide and other organic compounds will be
	evolved when this material undergoes combustion or thermal or oxidative degradation.

SECTION 11 – TOXICOLOGIC	
POTENTIAL HEALTH EFFECT	
	expected if the product is handled in accordance with this Safety Data Sheet and the product label.
_ · · ·	ay arise if the product is mishandled and overexposure occurs are:
Inhalation	Breathing of high vapour concentrations may cause central nervous system depression resulting
	in dizziness, light-headedness, headache, nausea and loss of coordination. Continuous inhalation
	may result in unconsciousness and death.
Skin contact	May include redness and cracking. Skin irritant category 2.
Eye contact	Vapours and liquid may be irritating to eyes.
Ingestion	Expected to be of low toxicity - LD50 ATE Oral (rat) > 2,000mg/kg. May cause irritation to the
	mouth, throat, oesophagus and stomach with symptoms of nausea, abdominal discomfort,
	vomiting and diarrhoea, coughing, choking, wheezing, difficulty in breathing, chest congestion,
	shortness of breath, and/or fever.
Chronic exposure	No known effects.
Toxicology Information	Not toxic, based on ingredients. Oral LD50 : >2,000 mg/kg.
Carcinogen Status	
NOHSC	Classified as carcinogenic by NOHSC.
Respiratory sensitisation	Not expected to be a respiratory sensitizer.
Skin Sensitisation	Not expected to be a skin sensitizer.
Germ cell mutagenicity	Classified as Mutagenicity - Category 1B.
Reproductive Toxicity	Not considered to be toxic to reproduction.
STOT-single exposure	Inhalation of vapours or mists may cause irritation to the respiratory system.
STOT-repeated exposure	Central nervous system: repeated exposure affects the nervous system. Effects seen at high
	doses only. Auditory system: prolonged and repeated exposures to high concentrations have

Date of Issue: July 2022 Version: #4.0 Page 8 of Total 10

	resulted in hearing loss in rats. Solvent abuse and noise interaction in the work environment may cause hearing loss.
Aspiration Hazard	This product is rated as an aspiration hazard - May be fatal if swallowed and enters airways. Small amounts of liquid aspirated into the lungs during ingestion or from vomiting may cause chemical pneumonitis or pulmonary oedema. This can be fatal. As the product is hydrocarbon based, if the product has been ingested or vomiting has occurred after ingestion, the patient must seek urgent medical attention and should be monitored for adverse effects.

SECTION 12 – ECOLOGICAL	SECTION 12 – ECOLOGICAL INFORMATION	
Acute Aquatic Toxicity	Acute Aquatic Toxicity - Category 2 /Chronic Aquatic Toxicity - Category 2	
Product (as sold)	H401 / H411: Toxic to aquatic life with long-lasting effects.	
	Acute Aquatic Toxicity (ATE Calculated) LC50 fish: 2.0 - 20 mg/L.	
Persistence and	Biodegradable, based on ingredients. Hydrocarbon solvents would be expected to evaporate	
	largely to the atmosphere. Hydrocarbon solvents are expected to be moderately toxic to aquatic	
degradability	organisms.	
Bio accumulative potential	Has the potential to bioaccumulate.	
Mobility in soil	Spillages are unlikely to penetrate the soil. Floats on water.	
Other adverse effects	Not available	
Environmental Protection	Do not discharge this material into waterways.	

SECTION 13 – DISPOSAL CONSIDERATIONS	
	'EMPTY' container warning: 'empty' containers retain residue (liquid and/or vapour) and can be
	dangerous.
	DO NOT PRESSURISE CUT, WELD, BRAZE, SOLDER, DRILL, GRIND OR EXPOSE SUCH CONTAINERS
	TO HEAT, FLAME, SPARKS, AND OTHER SOURCES OF IGNITION, THEY MAY EXPLODE AND CAUSE
	INJURY OR DEATH.
	Refer to State And Waste Management Authority.

SECTION 14 - TRANSPORT	INFORMATION
Labels Required	
ADG	CLASS 3 .3 FLAMMABLE
IMDG Marine Pollutant	No
HAZCHEM	•3Y
Land Transport (ADG)	
UN Number	1263
Proper Shipping Name	PAINTS
ADG Code	CLASS 3 .3 FLAMMABLE

Date of Issue: July 2022 Version: #4.0 Page 9 of Total 10

HAZCHEM Code	•3Y
Special Provisions	
Packing Group	III.
Packaging Method	None allocated
Segregation	Segregation Class 3 – Flammable liquid shall not be loaded in the same vehicle or packed in the same freight container with: Class 1, Explosives
	Class 2.1, Flammable Gases, if both the Class 3 and Class 2.1 dangerous goods are in bulk Class 2.3, Toxic Gases
	Class 4.2 Spontaneously Combustible Substances
	Class 5.1 Oxidising Agents and Class 5.2, Organic Peroxides
	Class 6 Toxic Substances (where the flammable liquid is nitromethane)
	Class 7 Radioactive Substances.
	Foodstuff and foodstuff empties.

SECTION 15 – REGULATORY INFORMATION	
GHS Classification	Classified as Hazardous according to the Globally Harmonised System of Classification and
	labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.
SUSMP	S5 (PAINTS – EXEMPT)
ADG Code	CLASS 3.3 FLAMMABLE
AICS	All ingredients present on AICS.

Date of Issue: July 2022 Version: #4.0 Page 10 of Total 10

Issue Date	20 th July 2022
Version Number	V 4.0 GHS7 classification
